Assessment of Adherence Behavior with Covid-19 Preventive Measures: A Gender Perspective

08/05/2022 – 06/07/2022

Modelling, Analysis and Control Strategies of COVID-19 Transmission Dynamics: The case of Ethiopia

Hobbies and interests

Research and Development in Community Service For the last five years, I have engaged in higher education as a lecturer and researcher and in projects and research aimed to improve the lives and well-being of citizens especially demographical health, agriculture, women, children, and youth. As a youth myself, it is essential for me to continue in creating bigger impacts and social improvements in vulnerable communities so they can have a better quality of life and hope for their future. I always make an effort to provide high-quality research results by incorporating the perspective of minorities, and vulnerable and under-served populations by following culturally acceptable methodologies. My life is dedicated to becoming an international civil servant who strives for agricultural projects, improving maternal and child health, and promoting gender equality and women's empowerment through tailored research activities.

Volunteering

07/05/2019 – 19/08/2019 Addis Ababa - Ethiopia

Senior Data Analysis for Ethiopian national association of the blind

11/08/2022 – 15/11/2022 Addis Ababa - Ethiopia
